
ENERGY CONSERVATION SURCHARGE

Effective with bills rendered on or after January 17, 2008, the Energy Conservation Surcharge is set to zero to reflect that no charges for the Company's fast-track Residential Compact Fluorescent Lighting Program and current Residential Energy Awareness Campaign will be recovered from Customers. The surcharge will remain at zero unless and until other energy conservation programs are approved by the Commission for implementation by the Company. In addition, a one-time credit will be applied (or refund made, in the case of Customers no longer receiving service from the Company) to individual Customers for surcharge amounts billed between October 3, 2007 and January 16, 2008.

<u>Rate Schedule</u>	<u>Customer Surcharge (per month)</u>
R	\$0.00

ISSUED BY DAVID E. FLITMAN, PRESIDENT

Issued March 4, 2008

To become effective on
all bills rendered on
or after January 17, 2008

Approved at Public Service Commission Administrative Meeting of March 19, 2008
