**STREET AND HIGHWAY LIGHTING SERVICE**  
**SCHEDULE "SL" (Concluded)**

**TERM OF CONTRACT**

Service supplied is subject to the Rules and Regulations Covering the Supply of Electric Service of the Company as filed with the Commission.

The Company will supply service for underground installations, provided the Customer agrees to excavate, fill and resurface street or curbing necessary for the installation and maintenance of underground cable.

When metal poles are used for street lighting the Customer will supply all labor and material for the installation of concrete base according to the Company's specifications. Special equipment required for lighting bridges and subways shall be installed and maintained by the Customer, except lamp bulbs, which shall be furnished and renewed by the Company. No work shall be done on Customer's equipment connected to the Company's distribution system without the Company's approval.

**GENERAL**

Compensating for Transmission and Distribution Losses

Multiplying Customers' calculated on-peak lighting energy by 1.09513 and calculated off-peak lighting energy by 1.08671 produces the generation energy that must be delivered to the Company system.
