**SURGE SUPPRESSION SERVICE**  
**SCHEDULE PQ**

AVAILABILITY

Available for single-phase connections that are directly metered and are served at less than 250 volts. Surge suppression equipment consists of a base unit that is attached to Customer's service between the meter and meter socket and may include one or more surge suppression "plug" strips for indoor use. Equipment may also include special surge suppression devices for use with communication and CATV and digital satellite systems (DSS). Connection must be directly metered (i.e., not utilizing metering transformers). The meter and meter socket must be sufficiently accessible for installation of the surge suppression equipment. Company reserves the right to decline surge protection service to customers with hazardous or substandard service entrances.

MONTHLY RATES FOR SURGE SUPPRESSION SERVICE

DISTRIBUTION CHARGES

Base unit.....	\$5.41
One plug strip with telephone or coax connector.....	\$2.40
Additional plug strips.....	\$2.40
Satellite unit (DSS).....	\$2.96
Each additional DSS strip.....	\$2.96

TRANSMISSION CHARGES

Base unit.....	\$0.00
One plug strip with telephone or coax connector.....	\$0.00
Additional plug strips.....	\$0.00
Satellite unit (DSS).....	\$0.00
Each additional DSS strip.....	\$0.00

The transmission charges are based on PJM's Open Access Transmission Tariff which will change from time to time and is subject to Federal Energy Regulatory Commission (FERC) approval.

ISSUED BY JOSEPH H. RICHARDSON, PRESIDENT

Issued December 28, 2004

To become effective on  
all service rendered on  
or after January 1, 2005

Approved at Public Service Commission Administrative Meeting of December 22, 2004 in Case No. 8908

---

**SURGE SUPPRESSION SERVICE**  
**SCHEDULE PQ (Concluded)**

**LATE PAYMENT CHARGE**

Applies to this schedule as set forth in Company Rule No. 12 of this tariff.

**TERM**

One year for meter socket protection equipment and strip surge protection equipment.

**GENERAL**

Company will install all meter base unit surge suppression equipment. Other surge suppression equipment (plug-in strip suppression equipment) will be mailed to Customer within four to six weeks. Detailed installation instructions and assistance, where needed, will also be provided by Company. All surge suppression equipment listed above is warranted against damage by the manufacturer under specific circumstances. Customer's equipment protected by surge suppression equipment is also warranted against damage within published limits. Customer must comply with installation instructions (including grounding requirements) to activate warranty.

Should customer wish to terminate use of surge protection service, Customer will notify Company of his intent. Company will remove equipment and cease billing for the service upon removal of the base unit and receipt of any Company owned plug strip surge suppression equipment from Customer's premises.

Customer must meet credit standards.

Plug-in strip surge suppression equipment will also include a six (6) foot length of phone cord or coaxial cable (as appropriate.)
