

WEST PENN POWER COMPANY

EXPERIMENTAL SATURDAY AND HOLIDAY LOAD OPTION RIDER

AVAILABILITY

(C)

This experimental Rider is available only to locations now served hereunder and to locations for which definite rate commitments have been made as of December 31, 1998 for Customers, upon executed agreement where Customer takes service on General Power Service Schedule 30 or Primary Power Service Schedules 40, 41, 44 or 46, when in Company's sole judgment adequate electrical facilities are in place to serve the Customer requesting to be served hereunder. For purposes of this Rider, the load option hours will be those beginning 7:00 a.m. and ending 10:00 p.m. on only those Saturdays and holidays designated as such by the Company in its sole discretion. The potential load option hours include those on Saturdays and the following holidays: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving, Friday after Thanksgiving, Christmas, and the Monday following such of these as fall on Sunday. All Sundays are always off-peak. By noon of the previous day, it will be determined by the Company if service under this Rider is available for the next day. Customers contracting for this Rider will be so notified. In the event that a system emergency occurs following that notification, the Company will notify those Customers contracting for this Rider of that fact and, upon at least one-hour notice, the remaining load option hours will be withdrawn for that day. For service under this Rider, Customer must contract in writing in advance and there must be reasonable assurance from the Customer that Customer will have an additional load of at least 1000 kVA or kW in excess of Customer's on-peak maximum demand. This Rider is not available to provide standby or maintenance service for alternative generation systems. This experimental Rider may be withdrawn upon 30 day written notice to Customers contracting for service under this Rider.

MONTHLY RATE

Demand Charge

The Saturday and Holiday Load Option Rider demand will be billed in accordance with the off-peak provisions on the Customer's associated rate schedule.

Energy Charge.

Energy consumed under the provisions of this Rider shall be included in the energy billing in accordance with the Customer's associated rate schedule.

CONDITIONS

Customers electing service under this Rider acknowledge the Company shall not be obligated to make this Rider available every Saturday or holiday. The Company is not obligated to provide this power unless in its sole determination the resources are available and that use of the load option rider will not interfere with or infringe on other contractual agreements.

TERM

As provided in the executed agreement.
