**SCHEDULE "SL-P" (Continued)**

GENERAL (Continued)

All facilities necessary for supplying service including fixture, controls, poles, transformers, secondary circuits, lamps, and other appurtenances shall be owned and maintained by the Company. Units must be mounted on existing Company poles or new poles installed by the Company.

When service requested after March 1, 1975, under this schedule cannot be supplied from an existing pole, the Company will at the customer's request, install poles and spans of wire, which can be connected to an existing secondary circuit. The customer will pay in advance the cost of installing such additional facilities.

(I) Lights being served by additional facilities on March 1, 1975, under this schedule for which there is an additional charge will pay a monthly rental of \$0.65 for each span of overhead secondary circuit not over 150 feet in length, and \$1.39 for each standard distribution wood pole required. This provision is not available for new or additional installations.

Customer shall select the location of poles installed on customer's property, but such locations shall conform to all safety standards as well as to any municipal and state regulations. Poles will be moved after installation at the customer's request only upon payment by the customer of the actual cost of such moving.

Customer shall be responsible for all damages to, or loss of Company property located on customer's premises unless caused by elements beyond the customer's control.

Customer shall obtain written approval from public authorities for lights to be located on public thoroughfares.

All servicing and maintenance will be performed only during the regular scheduled working hours of the Company, and Company shall be allowed two working days after notification by the customer to replace burned-out lamps.
