GENERAL SERVICE RATE
SCHEDULE "E" (Concluded)

DETERMINATION OF BILLING DEMAND

The monthly billing demand will be the maximum number of kilowatts measured over any fifteen-minute interval, except as modified by the provisions for off-peak service.

OFF-PEAK SERVICE

Customer may contract for off-peak service, in which case the billing demand will be the higher of: (1) the maximum on-peak demand plus five (5) kilowatts; or (2) the maximum on-peak demand plus 25% of the maximum fifteen-minute off-peak demand over such on-peak demand. On-peak hours are from 7:00 a.m. to 10:00 p.m. Monday through Saturday. All other hours are off-peak.

TERM

For Customers with a demand of 100 kW or more, not less than one year. For Customers with a demand under 100 kW, a contract may be required for new Customers which require an extension of Company facilities under Company Rule 18, otherwise, no term. If a Customer discontinues service at a location and then requests service again at the same location within one year from the date service was discontinued, the Customer will retain the billing history and maximum billing demand for minimum bill calculations as if the service had been continued.

GENERAL

Rates and provisions are subject to "Rules and Regulations Covering the Supply of Electric Service."

SUPPLY OF MORE THAN ONE VOLTAGE

Single phase and three phase service may be supplied through two meters, when the meters are adjacent and the Company's cost of facilities is not increased. In such cases the meter readings will be combined for energy consumed and capacity required. This provision is restricted to those Customers and locations served in this manner prior to September 27, 1991.
