

GENERAL SERVICE RATE
SCHEDULE "G"

AVAILABLE for service to general service customers with normal maximum electrical capacity requirements of 10 kW or less per month. When a customer being served under this Schedule establishes or exceeds a normal maximum requirement of 10 kW per month, the customer will be placed on the appropriate general service Schedule.

MONTHLY RATE

Customer Charge - \$ 4.00 per month

Energy Charge

(l)	First 400 kilowatt-hours.....	\$0.09122 per kilowatt-hour
(l)	All additional-kilowatt-hours	\$0.08088 per kilowatt-hour

MINIMUM BILL

The minimum bill per month shall not be less than:

- (a) \$ 4.00, or
- (b) \$ 2.41 per kilowatt of capacity necessary to serve the Customer.

(l) INDICATES INCREASE

Issued: January 21, 2009

Effective: January 1, 2009

ISSUED BY
DAVID W. MCDONALD, VICE PRESIDENT

Issued under Order dated December 29, 2008 of the West Virginia Public Service Commission
in Case No. 08-1511-E-GI

GENERAL SERVICE RATE
SCHEDULE "G" (Concluded)

Also, the Company may install a demand meter on connections whose usage exceeds 5,000 kWh in any month. If a demand meter has been installed, the maximum reading of the demand meter in the previous 12 months will determine the kilowatt capacity necessary to serve. For connections without a demand meter, a kilowatt of capacity necessary to serve under this schedule shall be defined as the maximum number of kilowatt-hours used in the current month, or in any of the previous 12 months, divided by 120. If a Customer can demonstrate to the Company that his calculated demand is unreasonable, then the Company may change such demand or demands, and may elect to install a demand meter.

LOCAL TAX ADJUSTMENT

Within municipalities or political subdivisions which impose taxes based upon the amount of electric service sold or revenues received by the Company, as specified in Rule No. 20 of "Rules and Regulations Covering the Supply of Electric Service," there shall be added to the total bill a surcharge equal to the percentage shown on Sheet No. 5-1.

(N) ENVIRONMENTAL CONTROL CHARGE NORMALIZATION SURCHARGE

An Environmental Control Charge Normalization Surcharge shall apply, as outlined on Sheet No. 7-E-1 of this tariff.

ENVIRONMENTAL CONTROL CHARGE

An Environmental Control Charge shall apply, as outlined on Sheet No. 7-F-1 of this tariff.

TERMS OF PAYMENT

Bills are due and payable on presentation. A late payment charge of 2% of the net bill will be added to each bill not paid in full within twenty (20) days from the date mailed.

TERM

A contract may be required for new Customers which require an extension of Company facilities under Company Rule 18, otherwise, no term. If a Customer discontinues service at a location and then requests service again at the same location within one year from date service was discontinued, the Customer will retain the billing history and kilowatt of capacity necessary to serve for minimum bill calculation as if the service had been continuous.

GENERAL

Rates and provisions are subject to "Rules and Regulations Covering the Supply of Electric Service."

SUPPLY OF MORE THAN ONE VOLTAGE

Single phase and three phase service may be supplied through two meters, when the meters are adjacent and the Company's cost of facilities is not increased. In such cases the meter readings will be combined for energy consumed and capacity required. This provision is restricted to those Customers and locations served in this manner prior to September 27, 1991.
