

STREET AND HIGHWAY LIGHTING SERVICE  
 SCHEDULE "MSL"

New service under provisions of this schedule limited to service contracted for prior to November 26, 1997.

1. COMPANY OWNED AND MAINTAINED EQUIPMENT

AVAILABILITY

Available throughout the entire territory served by the Company for lighting service sold for the lighting of public streets, public highways and other public outdoor areas in municipalities, governmental units and unincorporated communities where such service can be supplied from the existing general Distribution System.

This schedule is also applicable within private property which is open to the general public such as private walkways, streets and roads, when the property and buildings are under common ownership and when supply from the Company's Distribution System is directly available and when lighting service is contracted for by the owner thereof. The rating of lamps in lumens is for identification and shall approximate the manufacturer's standard rating.

MONTHLY RATE

	<u>Lamp Size</u>		<u>Kwh</u>	<u>Overhead Supply</u>		<u>Underground Supply</u>	
	<u>Nominal Watts</u>	<u>Nominal Lumens</u>		<u>Wood Pole</u>	<u>Metal Pole</u>	<u>Standard Pole</u>	<u>High Mounting</u>

<u>Mercury Vapor - Continuous Burn - Restricted to installations as of November 1, 1990</u>									
(I)	250	11,500	215	22.66					

All lamps are lighted from dusk to dawn every night, or for approximately 4,200 hours per annum. However, at the request of the Customer, individual lamps may be operated continuously 24 hours per day. The monthly rate for each light continuously operated shall be the applicable rate above plus 60% of the base overhead supply wood pole monthly rate.

MINIMUM CHARGE

Rate Schedule billing.

STREET AND HIGHWAY LIGHTING SERVICE

SCHEDULE "MSL" (Continued)

When the circuit length exceeds 150 feet per light, there will be an additional monthly charge of \$0.011 per foot for each foot of span length and \$0.011 per foot for each underground trench foot. (This provision is restricted to locations as of October 3, 1985).

PAYMENT FOR SERVICE

Bills are due and payable upon presentation.

ENVIRONMENTAL CONTROL CHARGE NORMALIZATION SURCHARGE

An Environmental Control Charge Normalization Surcharge shall apply, as outlined on Sheet No. 7-E-1 of this tariff.

(C) ENVIRONMENTAL CONTROL CHARGE / ENVIRONMENTAL CONTROL CHARGE-2

An Environmental Control Charge and Environmental Control Charge-2 shall apply, as outlined on Sheet Nos. 7-F-1 and 7-G-1 of this tariff.

TERM

Ten years initially, renewable annually thereafter.

GENERAL

Service supplied is subject to the Rules and Regulations Covering the Supply of Electric Service of the Company as filed with the Commission.

For installations on or after October 3, 1985, the Customer will pay the estimated cost for all facilities not included in the Company's standard installation.

The standard overhead installation includes mounting street light equipment on an existing wood pole carrying secondary circuits. The standard overhead supply-metal pole and underground supply-standard pole installation includes one pole per light. The customer is responsible for all the costs associated with furnishing and installing any concrete bases for poles. Such installation shall be made to Company specifications and in a manner acceptable to the Company.

When lighting equipment is replaced or relocated at the Customer's request before the end of the term of the agreement, with equipment of like or lesser lumen output, the Customer shall pay the removal costs for the old facilities and the installation costs of the new facilities.

RODNEY L. DICKENS, PRESIDENT

STREET AND HIGHWAY LIGHTING SERVICE

SCHEDULE "MSL" (Continued)

GENERAL (Continued)

- (C) When the Company supplies service for underground installations, the Customer shall pay for, or at the option of the Company, supply the cost of excavating, backfilling, reconstructing and resurfacing necessary for the installation and maintenance of the underground cable.

When a new street lighting distribution system is required or whenever a Customer requests an installation that is not in conformity with the standard installation, the Customer shall pay the following:

- (a) For distribution facilities -- estimated installed cost of distribution facilities in excess of those normally supplied by the Company to make service available.
  - (b) For street light equipment -- Company's excess investment in special poles or fixtures over that of standard equipment, with the maintenance of the special equipment subject to (1) time and ability to obtain replacement, and (2) advance payment of the then excess cost over standard for each replacement.
- (C) (c) For bridges and subway lighting -- the Company will supply fixtures and circuit with the Customer supplying poles, conduit, raceways, and other necessary equipment including maintenance thereof.

 SCHEDULE "MSL" (Continued)

2. CUSTOMER-OWNED AND MAINTAINED EQUIPMENT - COMPANY SUPPLIES UNMETERED ENERGY

AVAILABILITY

Available for lighting service sold for the lighting of public streets, public highways and other public outdoor areas in municipalities, governmental units and incorporated communities consisting of Customer-owned foundations, posts, brackets and luminaires when the electric energy supplied to such equipment is unmetered and furnished by the Company from the existing general distribution system.

This schedule is also applicable within private property such as private walkways, streets, roads, and when supply from the Company's Distribution System is directly available and when lighting service is contracted for by the owner thereof. The rating of lamps in lumens is for identification and shall approximate the manufacturer's standard rating.

Available for high pressure sodium light sources only that are served from a low voltage (120 volt) electric circuit.

This rate is not available to serve Customer-owned lighting systems in an area where there will be a mix of Company-owned and Customer-owned systems.

MONTHLY RATE

The Company's supply of unmetered energy to the Customer's high pressure sodium street lighting system will be at the following rates:

	<u>Lamp Size</u>		<u>Kwh</u>	<u>Monthly Rate</u>
	<u>Nominal Watts</u>	<u>Nominal Lumens</u>		
(l)	70	5,800	37	\$ 4.60
(l)	100	9,500	51	\$ 5.52
(l)	200	22,000	86	\$ 7.85
(l)	400	50,000	167	\$ 13.22

When the Customer's equipment is intermediate in size to those listed above, the Customer shall pay the monthly rate applicable to the next larger size.

(N)

PAYMENT FOR SERVICE

Bills are due and payable upon presentation.

TERM OF CONTRACT

Service is sold under this schedule for a minimum period of thirty days.

RESPONSIBILITIES

The Customer is responsible for furnishing and installing all street lighting equipment which includes posts, foundations, brackets, and luminaires complete with ballasts, light sensitive switches and lamps using equipment approved and installed in a manner acceptable to the Company. All Customer-owned lighting equipment to be installed prior to connection to the Company's service circuits. All maintenance of the Customer's equipment shall be the responsibility of the Customer. The Company will furnish, install, connect, own and maintain the electric service circuits required to connect the Customer's lighting equipment to the Company's distribution system. If the Customer requests, and the Company agrees, the Company may install all Customer-owned lighting equipment at the Customer's expense.

If the Company is called out to do maintenance on Customer-owned lighting equipment, a charge will be made for time and materials required to do said maintenance. Also, the Customer is responsible for providing non-standard material.

CONTRIBUTION IN AID OF CONSTRUCTION

A charge will be made to the Customer in the amount of the estimated cost to the Company for installing all necessary facilities to provide service to the Customer's street light system. Also, the Customer will be charged the estimated cost for any alteration or adjustments to the existing overhead or underground lines necessary to provide adequate clearance or spacing for the street light system. Such charges to be collected prior to the start of construction.

(N) INDICATES NEW

Issued: November 27, 1996  
Name Change made September 1, 1996

To become effective on  
all service taken on  
or after November 1, 1990

in Case No. 90-652-E-T

STREET AND HIGHWAY LIGHTING SERVICE

SCHEDULE "MSL" (Concluded)

(N)

CONNECTION/DISCONNECTION FEE

The fee for connecting or disconnecting a street light shall be \$15.00 per light with a \$40.00 minimum per trip. Any work required in addition to that of connecting or disconnecting a light will be charged to the Customer based on the estimated cost to do the work.

REMOVAL CHARGE

Company-owned facilities no longer needed to provide service to the Customer's lighting system will be removed by the Company, and if the removal involves more than disconnecting the Customer's equipment, as covered under Connection/Disconnection Fee, the Customer will be charged the estimated cost to remove the Company's equipment. Removal of the Customer-owned equipment shall be at the Customer's expense.

All Customer charges are subject to any applicable local, state and federal taxes.
